

PUSHPENDRA SINGH

Software Developer Intern | Full Stack Developer | MERN Stack | React.js | Node.js

Uttar Pradesh, India | +91-9838704990 | push9338@gmail.com | LinkedIn | GitHub | YouTube

PROFESSIONAL SUMMARY

B.Tech Information Technology student with hands-on experience building full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in REST API development, JWT-based authentication, and responsive front-end design, with practical experience delivering real-world projects from requirements through deployment.

TECHNICAL SKILLS

Languages: C++, C, Java, JavaScript, SQL

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication & Authorization

Database: MongoDB, MySQL, SQL, DBMS, Database Design

Tools: Git, GitHub, Postman, VS Code

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS

PROJECTS

QuickDine — Full Stack Restaurant Booking Web Application | MongoDB, Express.js, React.js, Node.js, JWT, REST APIs

- Built a full-stack restaurant booking platform with three user roles (User, Owner, Admin) and role-based access control, following a structured development process from requirements to deployment.
- Designed MongoDB schemas for users, listings/restaurants, and bookings to support reliable data storage and querying.
- Built and documented 15+ RESTful API endpoints in Express.js/Node.js for listings, bookings, and user management, using Postman for endpoint testing.
- Implemented JWT-based authentication and authorization to secure protected routes, and developed a responsive React.js frontend with a modular component architecture.

Live Demo: quick-dine-kappa.vercel.app

JalRide — Smart Boat Booking Platform | Smart India Hackathon (College Level) | HTML, CSS, JavaScript

- Built a boat booking web platform for tourists as part of a 4-member team for Smart India Hackathon (College Level), collaborating across the full development lifecycle under a fixed hackathon timeline.
- Designed a digital ticket management system with interactive JavaScript features to support passenger tracking and safety.
- Delivered a responsive, cross-device UI, dividing tasks and debugging issues collaboratively as a team.

Live Demo: jalride-v1.vercel.app

PrepWave — Education Platform | HTML, CSS, JavaScript

- Designed and developed a responsive educational web platform organizing structured learning resources for an audience of 22,000+ YouTube subscribers.
- Built a mobile-friendly UI with interactive JavaScript features to support content delivery alongside the PrepWave YouTube ecosystem.

CERTIFICATIONS & VIRTUAL EXPERIENCE

- Deloitte Australia — Technology Job Simulation | Forage
- Commonwealth Bank — Software Engineering Job Simulation | Forage

ACHIEVEMENTS & LEADERSHIP

- Founder, PrepWave — built and grew an educational YouTube channel and web content platform to 22,000+ subscribers.
- Participated in Smart India Hackathon (College Level) as part of a 4-member software development team, delivering a working prototype under time constraints.

EDUCATION

Samrat Ashok Rajkiya Engineering College, Mirzapur — B.Tech in Information Technology, 3rd Year (2024–2028)
